## Ramblings

Needless to say we are all saddened by the events last month in New York City. I can not offer any more words of comfort than have all ready been said by folks a lot smarter than myself. ☺ But I will say that we all share in this, and together we will become a stronger nation.

As a result of the events and a resulting heavy workload, this month's Bacon Bits is a little sparse. As things settle down a bit I'll be able to make up for it next month. ☺

On a brighter note, don't forget the FISTS Fall Sprint from 1700 UTC to 2100 UTC on October 13. I'll be running the club call from the new shack. If you can stop by and grab the key!

72, oo, God Bless America!

Dan, N8IE Ω

## God Bless America.

Irving Berlin (1888-1989)  
Written in 1918, revised in 1938.

Intro (spoken):

While the storm clouds gather far across the sea,  
Let us swear allegiance to a land that's free,  
Let us all be grateful for a land so fair,  
As we raise our voices in a solemn prayer.

God bless America,  
Land that I love  
Stand beside her, and guide her  
Thru the night with a light from above.  
From the mountains, to the prairies,  
To the oceans, white with foam  
God bless America  
My home sweet home.

God Bless America,  
Land that I love  
Stand beside her,  
And guide her,  
Through the night  
With the light from above,  
From the mountains,  
To the prairies,  
To the ocean,  
White with foam,  
God bless America,  
My home sweet home.  
God bless America,  
My home sweet home.

## As Seen On Our Reflector!®

I was painting -- gosh I hate painting -- and the doorbell rang. I trotted down the stairs wiping paint all over the banister, of course. I peeped out and saw a long black Limo parked on the street sandwiched between two black Humvee's with little flags on them ... guys in suits with dark glasses everywhere! I saw a black helicopter hovering, but it made NO noise. I thought, in panic, "Rats! Dan ratted me out!"

The lady, wearing a gray business suit, and carrying a clipboard rang the doorbell again. She was flanked by two of the suit-guys, and backed up by another who was carrying a plain brown box. I opened the door.

She said, "Are you Mr. Steinmeyer?" After a big "gulp", I squeaked, "Yes."

She asked me to sign the form on the clipboard, so I scribbled my signature without looking. She smiled coyly and moved aside. The guy in the rear, stepped forward, placed the box on the porch, and backed away glancing all around. One of the suit guys muttered something into his lapel, and made some kind of signal. I only saw 10 or 12 of them now, but six had Uzi's. They piled into the vehicles and scooted off down the street. I glanced up at the helicopter, and the guy hanging out the side, kinda waved, but I didn't move. I've made THAT mistake before!

After a full 10 minutes, with sweat dripping off my nose, I leaned down to examine the box. It had all kinds of airline tags, customs stamps, and looked a little well worn. I saw inventory markings from the Smithsonian, Louvre, and ARRL labs. Taped to the box was a plain, yet elegant, stationary envelope with a return addresses to Vatican City. (Thanks for forwarding it from Malaysia, Sly! I owe ya.)

Guess what has made it's way home!!!!

I opened the box carefully and removed some of the packing and extra Diz stuff. My baby, the MP #4 is mounted on a beautiful board, and I couldn't help but pick it up to hold it! As I was looking over the new sidetone circuit, I noticed some lettering on the bottom of the board, so I flipped it over. It says... and I am NOT kidding about this...

"FOR SALE"

I am a happy piggy.

First off, thanks guys for taking time out on a fairly busy holiday weekend. I know Saturdays are a tuff on any band! Well last week I picked on Mac and Randy, and this week I forgot Dans name...probably good the turnout was not real big or I'd a been blibbering, hopping around and oinking all over the shack:-)

Dan W9FCC 559/569, also very nice signal into Columbus, good to see you agn Dan!

Hope I didn't miss any one, if I did yell at me and let me know pse. I know, I know...but I cant help thinking of some kind of Dummy load array. HMMM.. wonder what that would look like on a 75ft tower?? 72-00 guy's and have a great Holiday!!

Rob #186 KC8NYW.

**9/3**

Thank you to whoever prayed to the RF god...band last night was the best I've heard in many weeks!!!

Net ran from 0100Z to 0153Z and every checkin was Q5 copy here in southern Michigan. Tried out my new (new to me) Timewave DSP-59+ box and it worked great great. A few of the normal checkins were missing..but then again with 11 checkins to start out with, I'm not going to whine...LOL

KB5ELV 569 Q5 Buddy  
KC5ADF 569 and then Bill was Q5...Two Texans in one net...thanks partners!!!!  
KE1LA 599 Joel, this is the loudest I've heard you in sometime  
KC8NYW 599 You and Randy are always booming in here Rob  
W9FCC 599 Welcome to the FP pen Dan...we (AF4PS and me) tried contacting you about five minutes after the net but some others had already jumped in and started QSOing. Mac would like to work you for the the FP matrix. Good signal and FB fist last night. Hope to hear you on alot if time permits you to do so...  
AF4PS 339/569 without and then with DSP assistance..not bad Mac, sure good to copy a complete exchange again.  
KB9BVN 599 at checkin...then you QSY to IM...599 there too...LOL  
W1QF Terry what happen to you? You were about 579 at checkin but never heard you when I called back for a transmission.  
KC4URI 579 Nice job Steve  
AJ4AY 579 Hey Jay, your signal this week was much better than last week..nice to hear you all the way through...maybe the bands are finally clearing up enough for this old fart to hear everyone consistently...hahaha  
NV4T 449, Q5 Copy Bill...some SSB was starting up as you came on but got you fine!!!  
WV9N 599 I will send you some of my Ginko if I can remember where I put it...LOL.

Great net folks...the band seems to be settling down some these days so maybe the upcoming nets won't be so hard for everyone to hear me and me hear them. Enjoy Labor gagn and see everyone on Wednesday nite.

OO's...Mikey

This was more fun than what I had expected. Conditions were on the noisy side..and Ohio and Texas had lightening dancing around their antenna's.

The best part of the net was right at the end, when Phil [WB8ABE] called in and we chatted for about 15 minutes. This was a very special QSO for me as this was Phil's first CW contact in nearly 30 years. You couldn't tell it my his fist..it was good..but he did mention his nerves were shot toward The end of our chat. Phil, I hope you won't be a stranger to the FP nets now! It was fantstic to finally work him after all these e-mails and the enjoyable eyeball QSO's we had at FDIM.

Here is the run down of the check-ins:

W8DIZ Diz 339..and I wasn't much better on Diz's end...bad storms

KC5ADF Bill 229 Sorta surprised me Bill when I heard your call..thanks

KE1LA Joel 599 Joel, are you sure your not running a couple of Kilowatts from up there in God's country????

KB5ELV Buddy 569 You Texans are becoming an FP  
Icon for the nets...LOL

WB8ABE Phil 599 Phil, I'm glad I was the NCS tonight..your checkin was a real thrill for me!!!

Hope to see everyone tomorrow nite..and hope even more that the band settles down some!!!

This month I would like to honor all the brave men and women of the New York City Fire Department, Police Department, and rescue workers who have given their time, and lives to help rescue and reclaim the victims in New York City and at the Pentagon. Ω

**Amateurs among the missing in WTC attack!**

The ARRL Letter Vol. 20, No. 37 September 14, 2001

At least four Amateur Radio operators are among the many still missing in the aftermath of the September 11 attack on the World Trade Center in New York City. The attack also destroyed the major TV and radio-transmitting site atop one of the twin towers.

The hams reported missing so far include:

- \* Steven A. "Steve" Jacobson, N2SJ, 53, of New York City, a transmitter engineer for WPIX TV, and an ARRL member.
- \* William V. "Bill" Steckman, WA2ACW, of W Hempstead, New York, a transmitter engineer for WNBC TV. He was well known in the NYC area and ran a number of repeaters from the World Trade Center, most notably the 434 MHz ATV repeater.
- \* Robert D. "Bob" Cirri Sr, KA2OTD, 39, an ARRL member from Nutley, New Jersey and the ARRL District Emergency Coordinator for Hudson County. A Port Authority police officer, Cirri was on the job helping to evacuate workers from the building when it collapsed.
- \* Michael G. Jacobs, AA1GO, 54, an ARRL member from Danbury, Connecticut. Jacobs worked at Fiduciary Trust Company International, which had offices in the World Trade Center. Ω
